2 Hour Intensive **Magic Lesson**

Our two hour intensive magic lesson is ideal for anybody with a keen interest in magical entertainment. It would also make an exciting birthday present for somebody special who has an interest in magical entertaining.

During the two hour lesson, one of our team will give individual tuition on professional close-up magic. Some of the effects taught during the lesson can also be performed in stand-up or cabaret situations.

This is not toy shop magic!

Please note that all the magical effects taught during the magic lesson are in constant use in our own shows and presentations. They are not available in toy shops, boxes of corn flakes or happy meals.

Everything has been battle tested over many years in front of tough, live audiences.

Our training and the professional routines which we teach will enable you to entertain your audiences, young or old.

Lessons can be tailored to meet your exact requirements, a typical lesson could be:

1. A copper and silver coin effect where the copper coin keeps returning to your hand.
2. A pseudo mind reading effect where you know in advance what coin your audience will choose.
3. How to stack a deck of cards so that you know the position of any card in the deck.
4. A neat publicity stunt using the 'Ghost Count' to produce your business card.
5. A rope escape and penetration.
6. Gambling and escape routines with a loop of chain.
7. Miser's dream coin routine using a metal cup.
8. A variety of bar stunts which will make you the life and soul of the party.

As we only use full time professional entertainers, lessons may be given at any time, provided that we are not already booked for shows or other lessons.

We also offer a magic lesson voucher service so that you can purchase a lesson voucher to give as a present. The recipient can then contact the school to arrange the date and time for their lesson.

As an added bonus, all the materials used during the lesson become the property of the student to take home and practice with at the end of the lesson. This two hour lesson could start somebody off on a lifetime hobby of fun and excitement.
