Children's Shows

Schools and Playgroups

I can provide shows specially tailored to suit schools and playgroups. The shows are variety performances and consist of a wide range of magical tricks and illusions according to the ages of the children, puppets, balloon sculpture and action songs accompanied by my guitar. There is also a special road safety spot included in each show which ensures that all the children remember how to cross the road safely. There is plenty of audience participation in every show.

Churches and Holiday Clubs

Being a Christian entertainer, I am often called upon to preach in churches and also present shows for outreach work. My tricks, puppets and choruses help to get The Good News across to any audience.

Shopping Precincts and Council Shows

My shows are fully self contained and can be performed indoors or outside. I am also available for outdoor walkabout entertaining with magic and puppets.

Social Club Parties

Children's parties in social clubs can be difficult, due to the wide age range of the children but as I have such a varied show, I can entertain at these and keep all the children young and old amused.

Private Parties

I regularly perform at private parties in peoples homes, in village halls and even in pizza and burger bars. If requested I can also run all the games and competitions.
